SIR

Subject - REVISED ESTIMATE FOR Rs 50,400/- FOR CEMENT CONCRETING SILVER JUBILEE PARK ROAD, BANGALORE CITY

I have the honour to state that in accordance with the sanction granted in Government Order No L 15984/11 39-46-79 dated 16-5-47 to the estimate for Rs 36500/- for cement concreting the Silver Jubilee Park Road and to the work-slip for Rs 8400/- in the subsequent order No G O L 17182-4/11 39-47-96 dated 29-5-1948, the work as taken up on hand by the departmental agency During the course of execution of this work the following items of works were found to be necessary to complete the cement concreting work of this important road

i Providing lean concrete to the scoures

ii Raising level of man-holes at cross Roads

iii Providing slabs at cross Roads at the sewer line portions

iv Improving foot-paths

v Raising and reconditioning of approaches at every cross Road

vi Cost of equipments etc

The extra cost involved for execution of extra items of works referred to above would be Rs 10,053/- as explained in the Municipal Executive Engineer's report No D [illegible] 09/48-49 dated 29-9-48

2 The Revised Estimate for Rs 50,400/- prepared in this

MUNICIPAL COMMISSIONER

Copy of report No D.E 69/48-49 dated 29th September 1948 from the Municipal Executive Engineer submitted to the Municipal Commissioner, Bangalore City

---

REVISED ESTIMATE AMOUNTING TO Rs 50,400/- FOR THE CONSTRUCTION OF SILVER JUBILEE BAR ROAD

The original estimate was sanctioned by Government in their order No L 15984/ML 39-46-79 of 16-5-47 for this work amounted to Rs 36 500 comprising of Rs 6 000/- on a lump sum basis at 1500/- per furlong for the sub grade formation and Rs 30,500/- for the cement concreting of 4' to 5' thickness for a width of 24 feet

The provision of a lump sum of Rs 6,000 made by Government as against the original provision made in this office of Rs 9,300/- was found to be very inadequat and a workslip for Rs 8400/- was submitted for the work of sub grade formation alone, which was sanctioned by Government in their order No L 17182-4/ML 39-47-96, of 29-5-1948

As per actuals the sub grade formation has cost Rs 8463/ as per details incorporated in the revised estimate

The present revised estimate includes some extra items of work such as the provision of lean concrete for the scours raising levels of manholes at cross roads provision of slabs at cross roads at the sewer line portions cost of equipments improvements to foot-path, raising of sides, raising and reconditioning of approache at every cross road etc These items have cost Rs 2,691 as against the provision of Rs 1307 for unforeseen works in the original sanctioned estimate

With the above it is seen that as against Rs (36,500 6,000, 1 307) or Rs 29 193/- exclusively for concreting as per original sanction, the present cost for this specific work has been (50 400/-, 8 463/-, 2,691/-) or Rs 39,246/- The excess of (Rs 39,246/- 29,193/-) or Rs 10,053 is on account of the following

i The average thickness of the slab working to 4¼' as against the provision of 4' that had been made, resulting in a slightly greater quantity of concrete to the extent of about 2,300 c feet This was necessary to make up the required fall

ii The increased labour conditions, necessitating the laying charges per cubic feet from As 0-3-0 as per original provision As 0-4-7 per c feet as per actual cost

iii The increased cost of the materials especially Cement for which the original provision was Rs 64/- per ton as against the present actual rate of Rs 88-8-0 per ton

The revised estimate and the comparative statement explaining the difference and the reasons of difference in each item have been put up

The supply of sand being departmental, the cost of the same has not been incorporated in the original sanctioned estimate or the present revised statement But for the purposes of working out the actual data on the work and to get an idea of the cost of the work the cost of sand will also have to be included, considering the cost of sand as Rs 5/- per cubic yard, the cost of cement concrete road, 24 feet wide with bitumen joints etc, complete is found to cost Rs 10,250 per furlong

This may be placed before the Managing Committee and the Council for their approval Approval of Government to the estimate may thereon be obtained and communicated early
